HiQu[®]XT

Exposed thermostatic shower and bath shower mixer range

The same poise, the same sophistication and a brass-bodied build that simply shouts quality... just one glance at HiQuXT confirms its credentials as a member of the über-stylish range of HiQu showers and bath shower mixers.

But, beyond the looks is also substance. The innovative, ergonomic design of HiQuXT means that it will always rise to the challenge when space is at a premium, whilst its practical construction simplifies and speeds installation – making HiQuXT the perfect choice for both new and refurbished bathrooms alike.

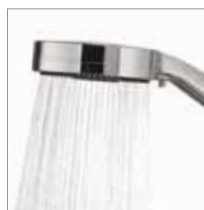

Features

- High performance, thermostatic shower for high pressure plumbing systems
- All metal construction, finished in timeless, stylish chrome
- Eco stop flow control for a greener shower
- Maximum temperature override button makes showering safer
- Choice of wall or bath mounted fixings for bath shower mixer
- Height adjustable shower head with extra long riser rail and smooth chrome hose
- Three perfectly defined spray patterns
- Clever, anti-twist shower hose mechanism
- Innovative, optional easy fit fixing bracket allows simpler, quicker shower installation
- 5 year guarantee

Use the integrated diverter to switch between thermostatically controlled bathing and showering in a single space – ideal for smaller or secondary bathrooms where you want the best of both worlds. You can choose the bath mounted option, or – for the hotel chic look – accessorise with a wall mount installation kit.

Thermostatic, peace of mind bathing

Adjust your shower's spray pattern to suit your mood

Sculpted, stylish design meets perfect functionality and precision performance
